String trimmer and leaf blower maintenance schedule

FleetOptima
fleetoptima.org

For 2-stroke string trimmers and backpack or handheld blowers. On a full-time crew these rack up hours long before the calendar catches up, so go by whichever comes first.

Typical intervals from manufacturer manuals and published service schedules. Your machine's manual comes first.

Every day

TASK	HOW OFTEN	NOTES	✓
Clean the air filter	Daily		
Clean the cooling fins and intake	Daily	Overheating kills these engines	
Check for fuel leaks	Daily and every refuel		
Check the starter rope	Daily		
Tighten loose screws and bolts	Daily		

Every 3 months or 90 hours

TASK	HOW OFTEN	NOTES	✓
Replace the air filter	3 months or 90 hours	Some makers say only when it loses power; replacing on schedule is cheaper than a rebuild	
Check the fuel filter	3 months or 90 hours		
Check the fuel cap gasket	3 months or 90 hours		
Clean or check the spark plug	3 months or 90 hours		
Check the spark arrester screen	3 months or 90 hours	Replace if clogged	
Decarbon the exhaust port	3 months or 90 hours	Shop job	

Longer

TASK	HOW OFTEN	NOTES	✓
Replace the spark plug	Every 100 to 270 hours	Depends on the maker	
Replace the fuel filter	Yearly		
Replace the fuel cap gasket	Yearly		
Replace the starter rope if worn	Yearly
